

Technical data

Safety

Perfect load control and maneuverability in close surroundings is assured at all times. Linde archives this by placing the cabin in the raised rearward, optimised position to allow through-mast and direct visibility to the twistlock pick-up position. Visibility around the machine from the operator position is optimised by the utilisation of generous glass panels.

Performance

The finely tuned hydrostatic drive system delivers precision in operation balanced with optimised speed of performance. The stepless drive system ensures that acceleration through to top speed is without mechanical intervention.

Comfort

The operators cabin is mounted to a raised platform on high density rubber mounts, this ensures that drive and power train vibration, together with operational vibrations are suppressed thus provides the operator with a comfortable working place. The standard operators seat is equipped with hydraulic damping for additional cushioning.

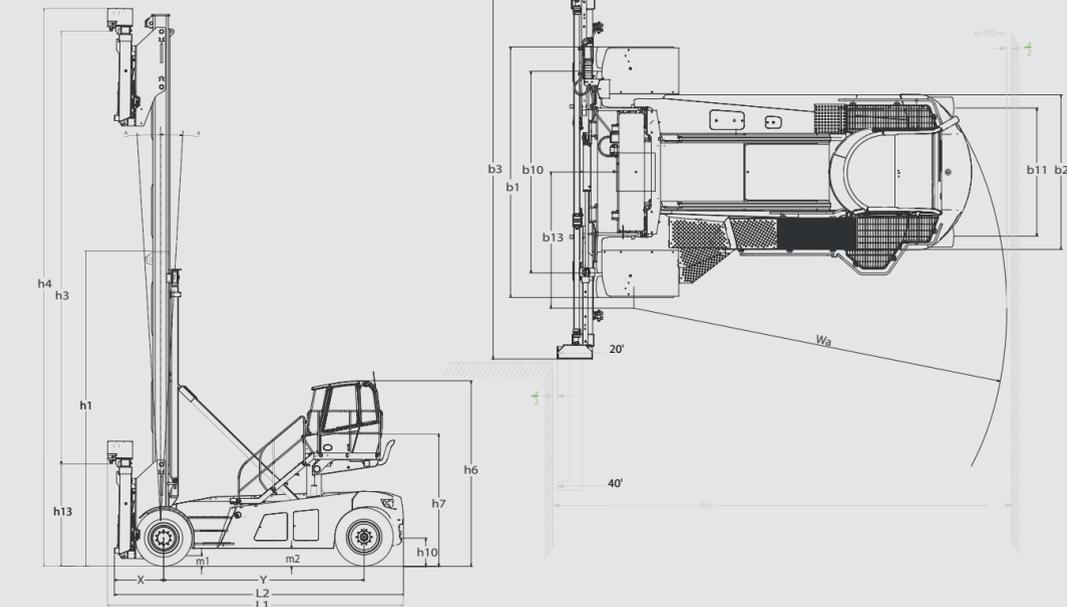

Reliability

The proven reputation of the hydrostatic drive systems coupled together with the power unit provide peace of mind for the drive system; the mast and lifting device has been thoroughly tested for endurance and security in operation

Productivity

With the utilisation of the world-class hydrostatic drive system, speed and precision in operation is assured, the operational characteristics of the twin pedal drive system, and Linde Load Control hydraulic operators controls, ensure that minimum operator movement is required to operate the machine, thereby saving time and limiting operator fatigue.

Standard and optional equipment

Standard equipment

Overhead guard
Hydraulic-suspension comfort-class seat with wide range of adjustment
Lockable, under seat storage box
Document storage bin – left side of seat
Linde twin drive pedals to control truck travel
Linde Central Load Control for low-effort precision control of all mast and sidelifte frame functions
Fixed angle steering wheel
Demand-controlled hydrostatic power steering, fuel-economizing, easy and precise response
High-performance hydraulic filter preserving maximum purity of oil for long life of all hydraulic components
Floor, mat
Glare free display including fuel gauge, clock, hour meter, servicing information and control lamps for all important truck functions

Engine intake air cleaner with integral safety element and high level dustbowl
Twistlock condition display for locked/unlocked/seated position with override switch
Abundant storage space for writing materials, beverage cans, etc.
Pneumatic tyres
Standard reverse section mast with 4 chain lift system
Integrated sidelifte frame with safety interlock, vertical twistlocks, extension 20'-40', sideshift +/- 300mm
Internal rear-view mirror
External rear-view mirrors
Audible warning reverse alarm
Standard Linde paint scheme

Options

Single drive pedal in combination with direction selector in armrest
Standard masts, 5 & 6 high 9' 6" and 7 and 8 high 8' 6" lift height
Overhead guard add-ons – Front screen, top window, rear window
Cabin with front, top and rear washer/wipers with heater
Deluxe cabin with climate control, heated seat, adjustable steering column, roof and front screen blinds, front, top and rear washer/wipers
Seat incorporating air suspension with compressor
Individual levers – lift and tilt
Individual levers – extension/retraction, sideshift
Radio with compact disc player and speakers

Truck lights, work lamps
Heated mirrors
Engine air pre-cleaner
Beacon lamps
Adjustable steering column
Blinds – roof and front screen
Accumulator for hydraulic service
On-board battery charger
High level air intake for heating system
Custom paintwork
+/- 600mm sideshift
Other special features on request

Empty Container Handler
Capacity 9000 kg
4500mm wheelbase
C90/5 – C90/8

SERIES 318

Linde Material Handling

Linde

Features

Power and drive system

- Linde hydrostatic drive system providing stepless, precise operator control.
- Low speed, high torque diesel engine matched to hydrostatic drive and hydraulic service pump requirements

Double pedal operation

- Instant direction change
- Precise travel movement
- Reduces operator foot movement

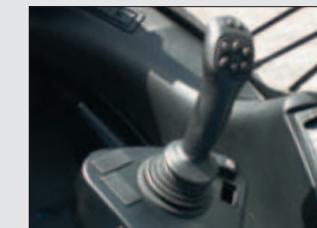

Operators controls

- Linde load central control lever
- Twin pedal drive system
- Column mounted handbrake
- Centre emergency brake pedal
- Centralised glare-free multifunction display

Linde Load Control

- Standard operator controls providing effortless operation
- Twin pedal drive system
- Linde load central control lever
- Reduced operator fatigue

Linde Truck control

- Reliable electronic controller
- High dependability resulting from redundant monitoring systems
- Automatic control of engine speed as function of load
- Casing totally enclosed for protection from dust and dirt

Operators compartement

- Raised, rear positioned for optimised all-round visibility, and free-sight to the twistlocks at all lift heights
- Impact tested loadguard structure
- Access stairway and platform on left
- Emergency ladder and platform on right

Modern powerful engine

- Diesel motor stage 3a emissions
- 6-cylinder 6.7 ltr 142 kW rated at 2200rpm
- Maximum torque 931@1400rpm

Linde free-sight mast

- Unique mast profile developed to control load forces normally found in empty container handling
- Optimised forward visibility by placing all operational parts outside of mast profile
- 20'-40' integrated telescopic handler with vertical fully-floating twistlocks and electronic safety interlock system
